

RECONOCIMIENTO

DR. CARLOS PALADINES

La APPUCE otorga el presente diploma a:

PhD Miguel Vivas-Cortez

Por la autoría del artículo publicado

• Bullen-Mercer type inequalities with applications in numerical analysis • Extraction of new solitary wave solutions in a generalized nonlinear Schrödinger equation comprising weak nonlocality • Extraction of Optical Solitons for Conformable Perturbed Gerdjikov–Ivanov Equation via Two Integrating Techniques • Global stability and modeling with a non-singular kernel for fractional order heroin epidemic model: Insights from different population studies • A new formulation and analytical applications of fractional operators

Distrito Metropolitano de Quito, 13 de abril del 2025
